COFFIN INTERMENTS RECOMMENDATIONS

- To ensure the maximum use of a burial allotment, we recommend the use of FLAT lid traditional shaped coffins for interment. If other styles of coffin are used, there can be no guarantee of successful multiple interments or construction of monumental work requiring foundations.
- Memorial foundations with contemporary or old/existing are to be expected to be present with every interment.
- Evidence has shown that the width of the head and the foot of these traditional shaped coffins is as important as the maximum length and width.

The measurements given below are the EXACT outer dimensions of the coffin that will arrive for interment. This INCLUDES any rigid/collapsible handles at their widest 'open' point.

The overall depth of the coffin is: cm
