Aboriginal and Torres Strait Islander statement

Randwick City Council acknowledges the Traditional Owners of the lands that include the Randwick City LGA, the Gadigal and Bidjigal people of the Eora Nation, and we acknowledge the living and continuing culture of the Traditional Custodians of this place.

We recognise that the Traditional Owners have occupied and cared for this Country over countless generations and that it was never ceded. We celebrate their ongoing contribution to the life of this area.

Randwick City has a rich and unique Aboriginal cultural history, with the Aboriginal community of La Perouse having an unbroken connection to the land.

We recognise and celebrate the spiritual and cultural connection Aboriginal and Torres Strait Islander people have with the land, which long pre-dates European settlement and continues today.

Building on our Statement of Recognition and commitment to Reconciliation, Council wishes to support the vision and plans of the local Aboriginal and Torres Strait Islander community in order to close the gap on disadvantage, build stronger local and regional economies and support culturally rich and healthy communities.

From the Mayor

Our Operational Plan and Budget outlines the projects and services we have planned for the 2023-24 financial year for our community – and we have a lot to look forward to.

The Paddy Bastic Pavilion (Maroubra Beach Pavilion) will be getting a refurbishment this financial year. Plans include an upgrade and refresh of the public amenities as well as an increase in storage areas for lifeguards and Surfing NSW.

Randwick City currently has nine outdoor gyms and we'll be adding two more - one at Purcell Park in Matraville and another at Woomera Reserve in Little Bay. Our community is loving our outdoor exercise areas and we hope the new gyms are equally as popular.

During the development of Council's Open Space and Recreation Strategy we heard our area needs more facilities for older kids and teenagers. We've listened to this feedback, and I'm pleased that we'll be commencing consultation and design on a new BMX pump track. Pump tracks are growing in popularity and feature mounds and banks designed to be ridden by 'pumping' and generating momentum without pedalling.

In addition to building some great new facilities, Council has committed to celebrating the arts in our City by investing in new public art displays. Plus, we'll be hosting more events and activities to celebrate, recognise and respect First Nations people.

We'll be putting our natural environment front and centre as we've committed to planting 5,000 new native and indigenous plants that will improve the connectivity of our beautiful bushland areas. This includes 1,000 trees that will provide habitat for our native fauna, as well as shade and heat reduction benefits.

Last but not least, we will be upgrading four playgrounds across our City at Grant Reserve in Coogee, Wills Reserve in Kensington, Woomera Reserve in Little Bay and Dr Walters Park in Chifley.

Cr Dylan Parker
Mayor of Randwick

From the General Manager

It's with great pride that I return to Randwick City Council as the General Manager. After more than four years away, it's a privilege to return and help lead Randwick.

As we enter this new financial year, I'm pleased to reassure residents of Randwick City, that Randwick City Council is doing well. Even with the degree of uncertainty that surrounds the current economic climate and the ongoing financial impacts of the COVID pandemic, Randwick City Council has maintained a strong, stable and resilient financial position that can withstand financial shocks.

Our budget for the 2023-24 financial year covers an array of projects, which is indicative of the diversity of Council's priorities and our community's needs. We thank everyone who takes the time to engage with us and let us know what you expect from your local Council – we hope to keep the conversation open as we continue into the new financial year.

What we've heard and what we know is how important it is to keep a continued focus on delivering quality projects and services across the community. This year, we're continuing Council's proud position of having a strong capital works budget of \$48.8 million dollars.

Our 2023-24 budget meets all 10 of the Office of Local Government's financial indicators demonstrating that our organisation is fortunate to be in a sound financial position due to many years of ongoing and prudent financial management.

I'm looking forward to continuing Randwick City Council's proud tradition of delivering quality community services and facilities in consultation with our residents for not only this generation, but for generations to come.

Ray Brownlee PSM
General Manager

2023-24 Budget summary

The 2023-24 annual budget has been set to ensure that we maintain financial sustainability, adequate liquidity and sound asset performance.

The key objective when developing the budget was to achieve a fully funded operating position and a balanced budget.

Given that the current economic environment has a degree of uncertainty with high inflation, and high interest rates, the 2023-24 budget has been prepared to withstand short term economic uncertainties. Any unexpected material variances and/or prolonged adverse economic conditions will be closely monitored through Quarterly Budget Review Statements presented to Council.

Each year the Independent Pricing and Regulatory Tribunal (IPART) sets the rate peg, which determines the maximum percentage amount by which the Council may increase its general income for the year. Randwick's rate peg for 2023-24 was 3.7%. There was no population growth allowance for the Council.

For details of our 2023-24 Budget, please see page 158.

2023-24 Capital works map

Part 1. About Randwick

The Randwick local government area covers 37.42 square kilometres and includes the suburbs of Centennial Park (part), Chifley, Clovelly, Coogee, Kensington, Kingsford, La Perouse, Little Bay, Malabar, Maroubra, Matraville, Phillip Bay, Port Botany, Randwick and South Coogee.

1.1 Our City

Randwick City is located in the eastern suburbs of Sydney, bounded by Waverley Council to the north, the Pacific Ocean to the east, Botany Bay to the south and the City of Sydney and Bayside councils to the west.

As of 30 June 2021, our estimated resident population was 135,275¹.

Natural and built assets

Randwick City is on the land of the Bidjigal and Gadigal people, and has a rich and unique Aboriginal cultural history, with the Aboriginal community of La Perouse having an unbroken connection to the land.

In addition to our unique cultural heritage, our City is known for its extensive parkland and open space areas, including Centennial Park, Heffron Park and Kamay

Botany Bay National Park, as well as our 29 kilometres of coastline with the magnificent Coastal Walkway linking ten beaches and eight ocean pools.

We have a range of quality sporting facilities, three libraries and a museum at La Perouse.

We have nationally recognised education and medical facilities including the University of NSW (UNSW) and the Randwick Hospitals Complex. We are also home to the Randwick Racecourse and some other major employment facilities such as Port Botany. These facilities, and our location close to the Sydney Central Business District and Sydney Airport, help make Randwick an important contributor to the broader economy of Sydney.

1.2 Our vision

The vision for Randwick City focuses on three key areas – our unique coastal environment, our strong sense of community and the sustainability of our natural and built environment.

Coastal

Randwick City's beautiful beaches, bays, ocean pools and coastline will be protected and enhanced to continue their important role in the social, mental and physical health of the Randwick City community.

Access to our coastline will be enhanced with a continuous Coastal Walkway, our beaches will be clean and safe and we'll support our community to share and benefit from our beautiful natural resources.

Community

Our strong sense of community will continue. Our culturally diverse community will be supported with opportunities to connect and engage with each other through quality shared public spaces as well as through well-designed private housing with high quality urban amenity.

A diverse range of social infrastructure will meet the social and cultural needs of our community, fostering greater connectedness and wellbeing.

We'll support improved public transport and a City that is easy to walk and cycle and connected with adjoining LGAs.

Sustainable

We'll focus on our natural environment and open spaces by protecting and increasing native habitat and providing enhanced access for physical recreation. We will support our community to transition to net zero emissions and reduce pollution and waste. Our urban environment will be adaptable and resilient to climate change through increased tree canopy and sustainable development. Our Council operations will be sustainable and carbon neutral.

Our distinctive village vibe and strong local businesses will be supported and enhanced to create lively town centres and capitalise on emerging work opportunities in knowledge-based industries.

1.3 Our Mayor and Councillors

Our City is divided into five wards – north, south, east, west and central.

There are fifteen elected representatives with three Councillors representing each ward.

The responsibilities of Councillors are defined in the Local Government Act 1993 and include:

- to be an active and contributing member of the governing body;
- to make considered and well informed decisions as a member of the governing body;
- to participate in the development of the integrated planning and reporting framework;
- to represent the collective interests of residents, ratepayers and the local community;
- to facilitate communication between the local community and the governing body;
- to uphold and represent accurately the policies and decisions of the governing body; and
- to make all reasonable efforts to acquire and maintain the skills necessary to perform the role of a Councillor.

The elections, originally due to be held in September 2020, were delayed until December 2021 due to COVID-19. Therefore, the current Councillors are serving a shorter term (December 2021 to September 2024).

Council meetings

Ordinary Council Meetings are held once a month, generally on the fourth Tuesday of the month with the dates of the meetings listed on our website. They are usually held either at the Prince Henry Centre or in the Council Chambers at 30 Frances Street in Randwick, and residents are welcome to attend.

Extraordinary Council Meetings may be called at short notice to address particular issues. The dates of these meetings are also published on our website.

To provide greater community access to meetings, live audio broadcasting of Council meetings is available via Council's website.

Business Papers and Minutes for Council meetings are also available on our website.

1.4 Our leadership team

Randwick City Council is managed by its General Manager and the Directors of four divisions: Community & Culture, City Planning, City Services and Corporate Services.

* The Office of the General Manager also provides executive support for the Mayor and Councillors and offers internal auditing to the organisation.

General Manager

The General Manager’s responsibilities are set out in Section 335 of the NSW Local Government Act 1993. They include:

- a) to conduct the day-to-day management of Council in accordance with the strategic plans, programs, strategies and policies of Council,
- b) to implement, without undue delay, lawful decisions of Council,
- c) to advise the Mayor and the governing body on the development and implementation of the strategic plans, programs, strategies and policies of the Council,
- d) to advise the Mayor and the governing body on the appropriate form of community consultation on the strategic plans, programs, strategies and policies of the council and other matters related to the Council,
- e) to prepare, in consultation with the Mayor and the governing body, the Council’s community strategic

plan, community engagement strategy, resourcing strategy, delivery program, operational plan and annual report,

- f) to ensure that the Mayor and other Councillors are given timely information and advice and the administrative and professional support necessary to effectively discharge their functions,
- g) to exercise any of the functions of the Council that are delegated by the Council to the General Manager,
- h) to appoint staff in accordance with the organisational structure and the resources approved by the Council,
- i) to direct and dismiss staff,
- j) to implement the Council’s workforce management strategy.

The overall performance of the General Manager is measured through a performance agreement as part of their contract of employment.

1.5 Our workforce

As of 27 March 2023, our workforce consisted of 960 employees.

Each employee has an important role to play in working towards achieving the outcomes of our Community Strategic Plan and delivering the diverse range of services required by our community.

1.6 Our values

Our ICARE values are a clear statement of how we work.

INTEGRITY: Ensuring transparency and honesty in all our activities

CUSTOMER FOCUS: Delivering prompt, courteous and helpful service and being responsive to people's changing needs

ACCOUNTABILITY: Accepting our responsibility for the provision of quality services and information which meet agreed standards

RESPECT: Treating everyone with courtesy, dignity and fairness regardless of our own feelings about the person or the issue

EXCELLENCE: Being recognised for providing services, programs and information which consistently meet and exceed standards through the use of best known practices and innovation

1.7 Our principles

The Local Government Act 1993 sets out Council's guiding principles.

The object of the principles is to provide guidance to enable councils to carry out their functions in a way that facilitates local communities that are strong, healthy and prosperous.

Randwick City Council applies the following general principles (taken from Section 8A of the Local Government Act) when exercising its functions:

- Councils should provide strong and effective representation, leadership, planning and decision-making.
- Councils should carry out functions in a way that provides the best possible value for residents and ratepayers.
- Councils should plan strategically, using the integrated planning and reporting framework, for the provision of effective and efficient services and regulation to meet the diverse needs of the local community.
- Councils should apply the integrated planning and reporting framework in carrying out their functions so as to achieve desired outcomes and continuous improvements.
- Councils should work co-operatively with other councils and the State government to achieve desired outcomes for the local community.
- Councils should manage lands and other assets so that current and future local community needs can be met in an affordable way.
- Councils should work with others to secure appropriate services for local community needs.
- Councils should act fairly, ethically and without bias in the interests of the local community.
- Councils should be responsible employers and provide a consultative and supportive working environment for staff.

The following principles are also applied to decision-making:

- Councils should recognise diverse local community needs and interests.
- Councils should consider social justice principles.
- Councils should consider the long term and cumulative effects of actions on future generations.
- Councils should consider the principles of ecologically sustainable development.
- Council decision-making should be transparent and decision-makers are to be accountable for decisions and omissions.

Underpinning the above guiding principles are the interrelated principles of Social Justice and Sustainable Development.

Principles of social justice: The four interrelated social justice principles of equity, access, participation and rights ensure:

1. There is fairness in decision-making, prioritisation and allocating resources, particularly for those in need.
2. All people have fair access to services, resources and opportunities to improve their quality of life.
3. Everyone has the maximum opportunity to genuinely participate in decisions affecting their lives.
4. Equal rights are established and promoted, with opportunities provided for people from diverse linguistic, cultural and religious backgrounds to participate in community life.

These principles are intrinsic to our work. We acknowledge the rights of all individuals to equal access to services and facilities within the City, and we are committed to identifying and addressing physical, communication and attitudinal barriers that exist in delivery.

Principles for Sustainable Development: Sustainable development is commonly defined as development that meets the needs of the present without compromising the ability of future generations to meet their own needs. Sustainable development applies to all aspects of how we work and underpins everything we do at Council.

1.8 Community engagement

Randwick City Council is committed to engaging with our community in a meaningful way that not only supports decision-making but also builds our relationships and strengthens our sense of community.

How we consult with the community is governed by Council's Community Engagement Policy which was developed through extensive community consultation and adopted by Council in December 2022.

We are committed to ensuring our community is informed and has a strong voice in Council's processes and projects. Participation and collaboration are essential for building our sense of community and ensuring our future vision comes to life.

Our community has local knowledge and are the experts of our place and by working together we can get the best outcomes for our community.

The following page details some of the ways we engage our community.

Precinct meetings

Precincts hold regular meetings run by local residents for local residents in partnership with Council. Every resident and ratepayer are automatically a member of their local precinct.

Your Say Randwick

Our online portal is the main location you can have your say on projects, plans and proposals. Register online to be notified of new consultations. yoursay.randwick.nsw.gov.au

Let's Chat

These pop-up sessions at beaches, parks and town centres give people the chance to speak directly with Councillors and staff about local issues.

Workshops and focus groups

Council regularly runs small, targeted workshops to explore local issues and to involve impacted residents and businesses in decision-making processes.

Committees & reference groups

Council runs a range of subject based committee meetings as well as Reference Groups to engage with our diverse community including Aboriginal, youth and multicultural communities.

Council meetings

Our Council Meetings are where elected Councillors make decisions. They are open to the public and broadcast online. You can speak at the meeting about items on the agenda.

Social media

Council maintains a strong social media presence across Facebook, Insta, YouTube, LinkedIn and Twitter. Follow us for latest updates and to provide feedback.

Surveys

Council conducts regular surveys to understand community attitudes. This includes a major telephone survey every second year on customer satisfaction.

Councillors

Your elected representatives are your voice on Council. You can contact your Councillors about any local government matters.

Part 2. About this plan

The Operational Plan is a one year plan that details the individual projects and activities that will be undertaken in the coming financial year to work towards achieving the commitments made in the 2022-26 Delivery Program.

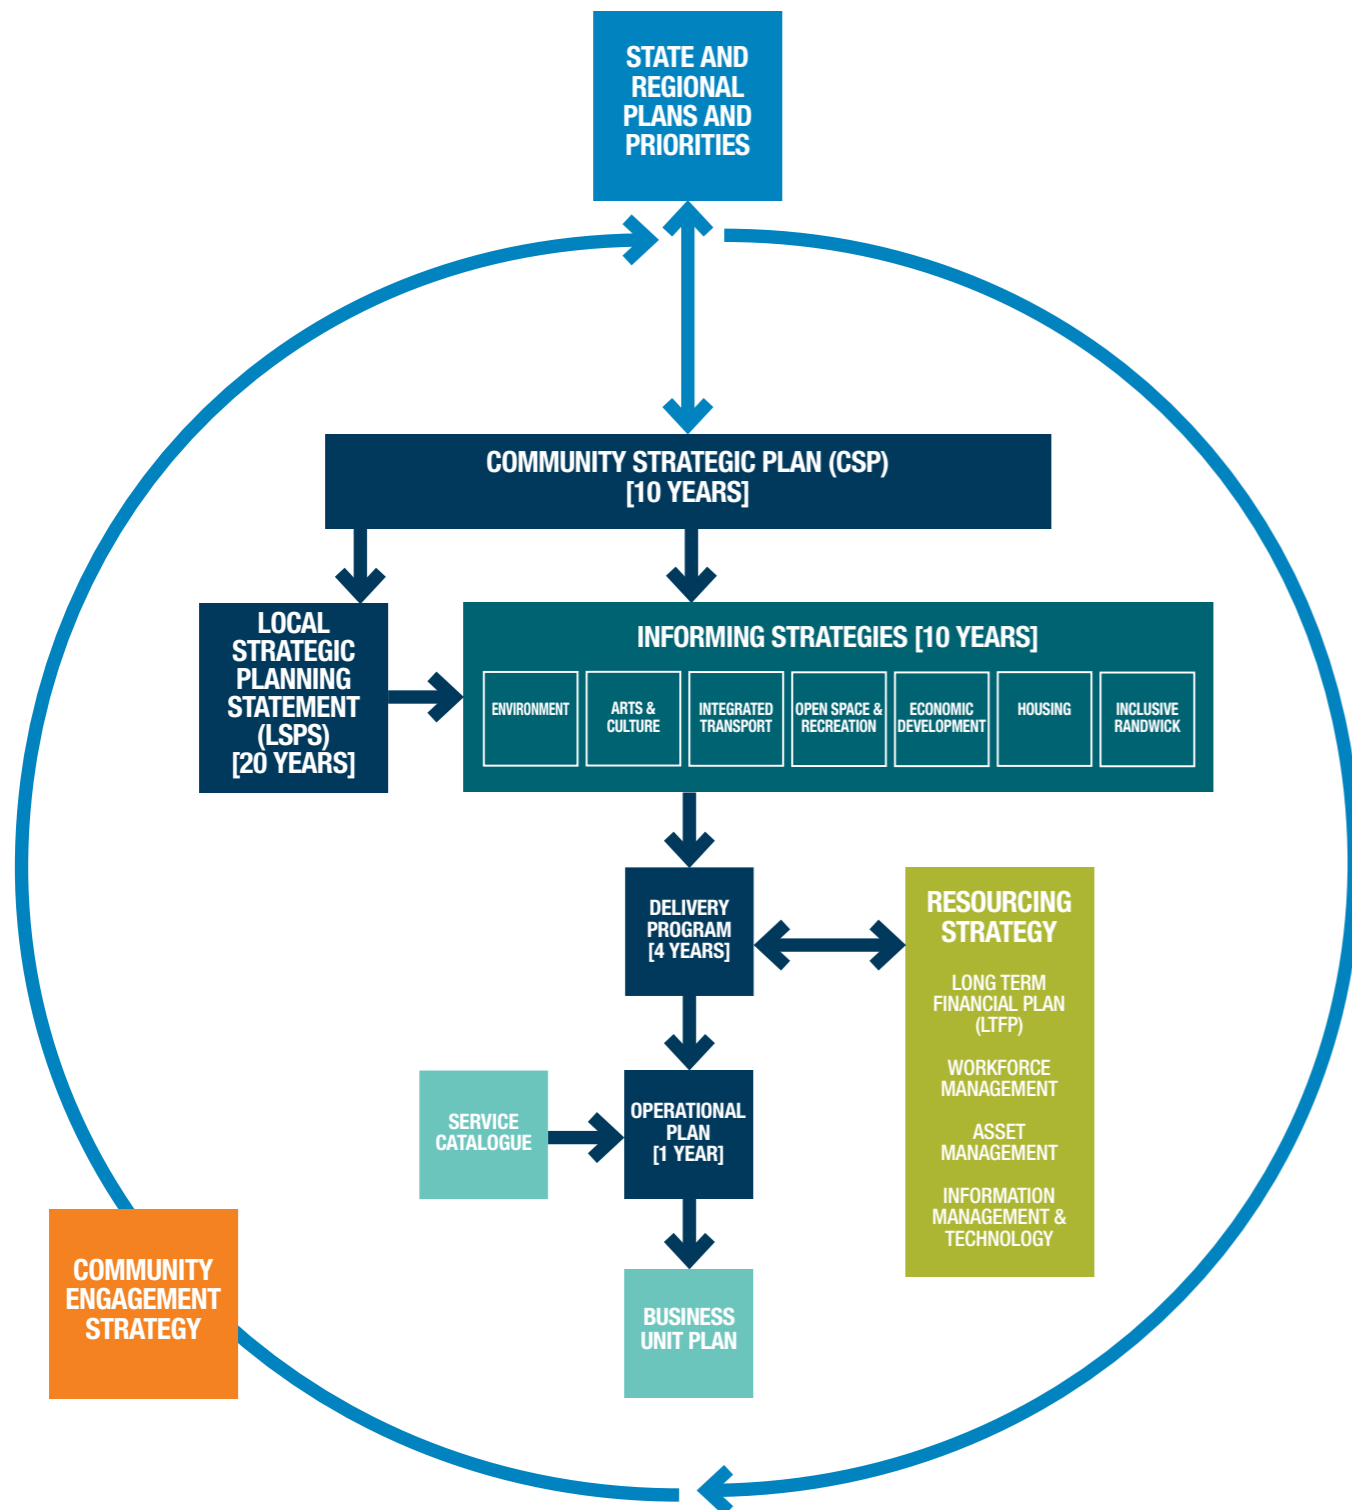

2.1 Integrated planning and reporting

Our approach to Integrated Planning and Reporting (IP&R) is based on the principles for local government as set out in Chapter 3 of the Local Government Act, and the legislated IP&R framework for NSW.

This integrated approach to strategic and operational planning, including resourcing, community engagement,

monitoring and reporting, ensures everything we do is helping to build a strong, healthy, prosperous and resilient community.

The following diagram shows how Randwick City plans to ensure we are working towards achieving the community's goals.

Planning

The Community Strategic Plan (CSP) is our 10-year plan that sits at the top of Council's integrated planning and reporting framework. It incorporates state and regional planning priorities and sets the direction for all Council's activities.

Sitting in the middle of the framework is our suite of seven Informing Strategies. These strategies link the high-level outcomes of the Community Strategic Plan with Council's day-to-day operations. They are the result of extensive research and consultation with the community. Each strategy includes outcomes, objectives, strategic approaches and principles.

The outcomes provide a comprehensive picture of the Community's aspirations for the future across all seven areas, and the objectives provide clear measurable ways of achieving these outcomes. Together they provide the basis for our 2022-2032 Community Strategic Plan.

The strategic approaches detail what Council will do to work towards achieving the outcomes and objectives over the next 10 years. These were used to develop our 2022-26 Delivery Program, thereby ensuring that Council's actions are directly aligned with achieving our community's aspirations.

The Operational Plan is a one year plan that details the individual projects and actions that will be undertaken in the coming financial year to work towards achieving the commitments made in the Delivery Program.

Resourcing

The Resourcing Strategy details how Council will provide the resources required to perform its functions, including implementing the strategic approaches, while maintaining the long-term sustainability of the organisation. Our Resourcing Strategy considers our workforce, our finances, our technology and our assets.

Monitoring and Reporting

Regular feedback on Council's progress in delivering the community's aspirations is delivered to the community through quarterly progress reports and Annual Reports.

These reports focus on Council's implementation of the Delivery Program and Operational Plan. In the year of each ordinary Council election, the Annual Report also contains the State of our City Report, which assesses progress with respect to the implementation and effectiveness of the Community Strategic Plan.

Council is committed to transparency and accountability. Part 3 of this plan includes clear performance indicators so Council and the community can track progress in delivery.

2.2 The Delivery Program

The Delivery Program is a statement of commitment to the community from each newly elected council. It is required to identify the principal activities to be undertaken by the council to perform all its functions for the four year period* commencing on 1 July following the election.

In preparing the Delivery Program, the council is accounting for its stewardship of the community's long-term goals, outlining what it intends to do towards achieving these goals whilst still providing the ongoing services required by our community and complying with regulatory requirements. All of Council's plans, projects, activities and funding allocations are directly linked to the Delivery Program.

Our 2022-26 Delivery Program was adopted in June 2022 and is split into two groups of principal activities. The first group includes all of Council's activities that specifically relate to delivering the outcomes of the Community Strategic Plan, whilst the second group covers all of Council's other services and functions:

Group A: Delivering the outcomes of our Community Strategic Plan

This group of commitments was developed by combining the strategic approaches from Council's informing strategies that are scheduled to be commenced and/or completed in the four-year period (2022-2026). Strategic approaches that are not scheduled to commence until after 30 June 2026 are not included.

Group B: Delivering Council's services and regulatory functions

This group includes the functions of Council that: provide ongoing day to day services to our community; ensure compliance with regulatory requirements; and provide the internal support services that are needed to keep Council operating efficiently and effectively.

* Due to COVID-19 delaying the 2020 elections, the current Councillors are serving a shorter term (December 2021 to September 2024). Notwithstanding this, the Local Government Act requires the delivery program to still cover the four year period from 1 July 2022 through to 30 June 2026.

2.3 The Operational Plan and Budget

Supporting the Delivery Program are annual Operational Plans. These detail the specific activities and actions to be undertaken by council each year.

Our 2023-24 Operational Plan lists the activities, projects and actions that will be undertaken in the 2023-24 financial year to achieve, or work towards achieving, the Group A and Group B commitments in our 2022-26 Delivery Program.

Group A: Delivering the outcomes of our Community Strategic Plan

The operational plan activities sitting under the Group A Delivery Program Commitments are specific actions planned for delivery (or partial delivery) of strategic approaches in 2023-24. Not all strategic approaches included in the 2022-26 Delivery Program are scheduled to be undertaken in 2023-24, therefore some do not have 2023-24 Operational Plan actions.

Group B: Delivering Council's services and regulatory functions

The operational plan activities in Group B reflect the ongoing commitments from Council to deliver day to day services and functions. They include services we offer that are not directly linked to the informing strategies, and relevant strategic approaches from the resourcing strategy that are scheduled to be delivered in 2023-24.

In addition to the activities, projects and actions that will be undertaken by Council in the 2023-24 year, our 2023-24 Operational Plan includes a detailed budget for all actions and Council's Statement of Revenue Policy for the year.

2.4 Service reviews

Included in our 2022-26 Delivery Program is our 2022-26 Service Review Program.

Through this program, we have commenced a comprehensive review of Council services.

The service review process involves engaging with the community and key stakeholders to develop agreed priorities and expected levels of service. The reviews will help ensure that we focus our resources where they are needed most.

Ten priority services were identified for review in 2022-26:

1. Development assessment
2. Parking patrols
3. Event management
4. Lifeguard services
5. Sports field management
6. Heritage assessments
7. Community hall management
8. Coastline waste and cleansing services
9. Tree assessments
10. Footway dining

These were selected by considering a range of factors including: community satisfaction levels; service utilisation; changing/emerging trends; and legislative requirements.

The first five of these service reviews commenced in 2022-23.

Three of these are now nearing completion (Development Assessment, Parking Patrols and Lifeguard services). The other two (Events management and Sports field management) have been carried over into the 2023-24 Operational Plan.

In addition to continuing our service review program in 2023-24, we will also be undertaking a range of other activities which seek continuous improvement across Council's operations. These are discussed in section 3.3.

2.5 The structure of our Operational Plan

Our 2023-24 Operational Plan details the individual projects and actions that will be undertaken in the coming financial year to work towards achieving the commitments made in our 2022-26 Delivery Program.

The annual operational plan and delivery program operate together. Therefore, this plan includes both the 2022-26 Delivery Program (which was originally adopted in June 2022) and our 2023-24 Operational Plan activities.

Note: The 2023-24 Operational Plan includes both new activities and activities that have been carried over from the 2022-23 Operational Plan.

To ensure transparency in performance, most previously adopted 2022-23 operational plan activities that reflect ongoing services delivered by Council, or projects that are not yet complete, have been carried over into the 2023-24 plan.

Generally, 2022-23 activities have only been deleted if they:

- were completed in 2022-23;
- have been postponed;
- have been replaced with a new activity that reflects the next stage of the project; or
- have been replaced with a new/updated activity that reflects a methodological change in how the delivery program commitment will be delivered and/or measured.

The structure of the document is detailed below:

Part 3. 2022-26 Delivery Program and 2023-24 Operational Plan activities

This part includes our 2022-26 Delivery Program commitments and our 2023-24 Operational Plan activities. They are split into two groups:

- Group A details how Council will work towards delivering the outcomes of the 2022-2032 Community Strategic Plan (CSP)
- Group B details how Council will provide the ongoing services required by our community and comply with regulatory obligations.

Part 4. Our Finances

This part includes a detailed budget for all planned activities in the 2023-24 financial year.

Part 5. 2023-24 Statement of Revenue Policy

This part provides Council's Statement of Revenue Policy as required under the Integrated Planning and Reporting Guidelines.

Part 6. Other Statutory and Supporting Information

This part provides additional information on Council's operations. It includes information on financial assistance provided by Council, asset management, the Environmental Levy, the Our Community Our Future Program and Council activities that are of a commercial or business nature.

Our 2023-24 Statement of Fees and Charges is provided as a separate document. Please refer to Council's website for details.

Part 3. 2022-26 Delivery Program and 2023-24 Operational Plan activities

This part details our complete 2022-26 Delivery Program with the specific Operational Plan activities that will be undertaken in the 2023-24 year to achieve, or work towards achieving, the commitments in our Delivery Program.

It also provides performance indicators for each activity so that Council and the community can track progress in delivery.

Note: 1. A new function 'Leisure Centre Facilities Management' (B15A) has been created in the 2023-24 Operational Plan to capture all activities associated with managing and maintaining our leisure centre facilities. Two activities, previously located under B16 (see note 3 below), together with one activity from the former B15 (see note 2 below) have been moved to sit under this new function.

2. The previous function of 'Water Safety' (B15) from our 2022-23 Operational Plan has been deleted and the two water safety activities relating to our lifeguard services moved to a new function called 'Public Safety' (B20A). The other water safety activity (managing the five DRLC swimming pools) has been moved to the new function 'Leisure Centre Facilities Management' (B15A).

3. The name of B16 has been changed from 'Leisure Management' to 'Leisure Centre Programs and Services' to reflect the addition of 'Leisure Centre Facilities Management' (B15A) as a separate new function. Activities relating to facilities management have been moved from B16 into the new B15A.

3.3 Continuous service improvement

We are committed to continually improving our customer service by understanding customers better, providing more efficient services, and focusing on delivering the things that matter most. Here are some of the ways we are planning to improve our service:

- In 2023-24 we will continue to implement our service review program. This program will help ensure that we focus our resources where they are needed most.
- In 2023-24 we will engage a vendor to develop an appropriate Customer Relationship Management Solution (CRMS). This will help Council manage the customer experience by linking customer interactions (including emails, phone calls, social media and other channels) and tracking responses.
- We will continue to progressively improve the way we measure and report on performance by increasing transparency and accountability; and automating the capture of progress so we can identify and address issues early.
- We will continue to improve visibility in how our actions are linked to real measurable benefits. Our integrated approach to planning means that everything we do is connected to delivering the outcomes of the Community Strategic Plan or delivering services and regulatory functions for our community. Therefore, by tracking our day-to-day actions, our community will be able to see how our actions are working towards achieving their aspirations.
- In late 2023 we will undertake a comprehensive customer satisfaction survey to ensure we are meeting the identified needs of our community.
- In 2023-24 Council's Business Analysts will continue to work with teams across the organisation to improve efficiencies and customer experience. Some of the areas scheduled for analysis in 2023-24 include venue hire and sport field management.

Part 4. Financial information

This part includes a detailed budget for all planned activities in the 2023-24 financial year.

4.1 2023-24 Budget

Our annual budget is a blueprint for how and where Randwick City spends its money each year and where the money comes from to pay for the services we provide. It sets out how much we will spend on operating and capital expenditure for parks and gardens, roads, public safety, sports fields, and a wide range of other functions.

In the context of our 2023-24 Budget we are steadily settling into a post-COVID new normal. We are working together with our community and stakeholders, to ensure a financially sound and sustainable local government, that continues to deliver affordable services to our community - now and into the future.

4.5 Asset management planning & capital expenditure

Asset Management Plans guide the long-term maintenance and upgrade of assets under the care and control of Randwick City Council.

Multiple issues are considered when deciding which assets to maintain or upgrade in any one period. These include, but are not limited to, the available funding, level of use, predicted life with maintenance, predicted deterioration without maintenance, risk to public of not upgrading and the relative cost required to deliver improvement to the life and usability of the individual asset.

Randwick City Council has a Capital Works Program that lists projects scheduled for the year and their cost (refer to the following table). The Capital Works Program includes projects relating to:

- roads (including footpaths)
- open space
- buildings and facilities
- drainage and flood mitigation

5.2 Rating structure

Ordinary rates

Council's ordinary rates are structured on an ad valorem basis in accordance with section 497 of the Local Government Act 1993 (the Act), and subject to minimum amounts in accordance with section 548.

The Act also provides for all rateable properties to be categorised into one of four categories of ordinary rates:

- Residential
- Business
- Farmland
- Mining

All properties within Randwick City are categorised as either residential or business using the following criteria:

- Residential – includes any parcel of rateable land valued as one assessment where the dominant use is for residential accommodation, or if vacant land, is zoned or otherwise designated for use for residential purposes under an environmental planning instrument.
- Business – is rateable land that cannot be classified as farmland, residential or mining. Land that is categorised as Business is levied at the business rate. For 2023-24 the Business ordinary rate is approximately 4.4 times the residential ordinary rate.

Section 529 of the Act, allows councils to determine a sub-category of the ordinary rate.

Port Botany Business sub-category

In 2018-19, Randwick Council introduced a sub-category of the Business category for Port Botany. This Business sub-category is based on a centre of activity as per section 529(2)(d) and applies to properties in the port operations area of Port Botany and Matraville.

Council has determined this unique centre of activity in-keeping with the Port Botany zoning map defined by the Three Ports State Environmental Planning Policy. The Port Botany Business sub-category applies to all land situated inside the SP1 Special Activities zone. See rates category map on page 184.

Valuations

Rates are calculated on the land valuation of a property, multiplied by a rate in the dollar. The land value is determined by the NSW Valuer General who issues a Notice of Valuation at least every three years. The Valuation of Land Act requires Council to assess rates using the most recent values provided.

A re-valuation of Randwick City took place in 2022. The 2022 valuations will be used for the first time from 1 July 2023 and for the three rating years: 2023- 24, 2024-25 and 2025-26.

Rate pegging

The NSW Government introduced rate pegging in 1978. Rate pegging limits the amount by which Council can increase its rate revenue from one year to the next. The amount of the rate peg was previously set by the Minister for Local Government, but from 2011-12 has been set by the Independent Pricing and Regulatory Tribunal (IPART) using a Local Government Cost Index and Productivity Factor. All councils are subject to the annual rate peg unless otherwise covered by an approved variation.

IPART determined a 2023-24 rate peg for Randwick of 3.7%, which included a zero-population factor.

Special rate variations

Environmental Levy

Randwick City Council has had an Environmental Levy in place for the past 18 years. The levy funds initiatives that address important environmental issues such as coastal protection and conserving resources.

The levy was originally introduced in July 2004 for five years. Since then, the levy has been expired and continued, with community support and State Government approval, on three separate occasions (2009, 2014 and 2019). The current temporary special variation approval for a five year continuation of the Environmental Levy was granted by IPART in May 2019, for the period 2019-20 to 2023-24.

In 2023-24 the estimated yield from the Environmental Levy special rate is \$5,317,591.

2023-24 Programs and projects funded through the Environmental Levy are provided on page 196.

Our Community our Future (OCOF)

In May 2018, the Council received approval for a permanent special variation from IPART to fund a program of projects and services identified by Council. This program, known as Our Community Our Future (OCOF), included rate increases above the rate-peg for three consecutive years. The last of these rate increases occurred on 1 July 2020, so there are no further rate increases scheduled under this program. The rate increases applied through the OCOF special variation approval now form part of Council's permanent rate base.

In accordance with the terms of the IPART approval, the funds received through the OCOF special variation will continue to be used to fund approved projects and services for the next five years.

Rate Summary

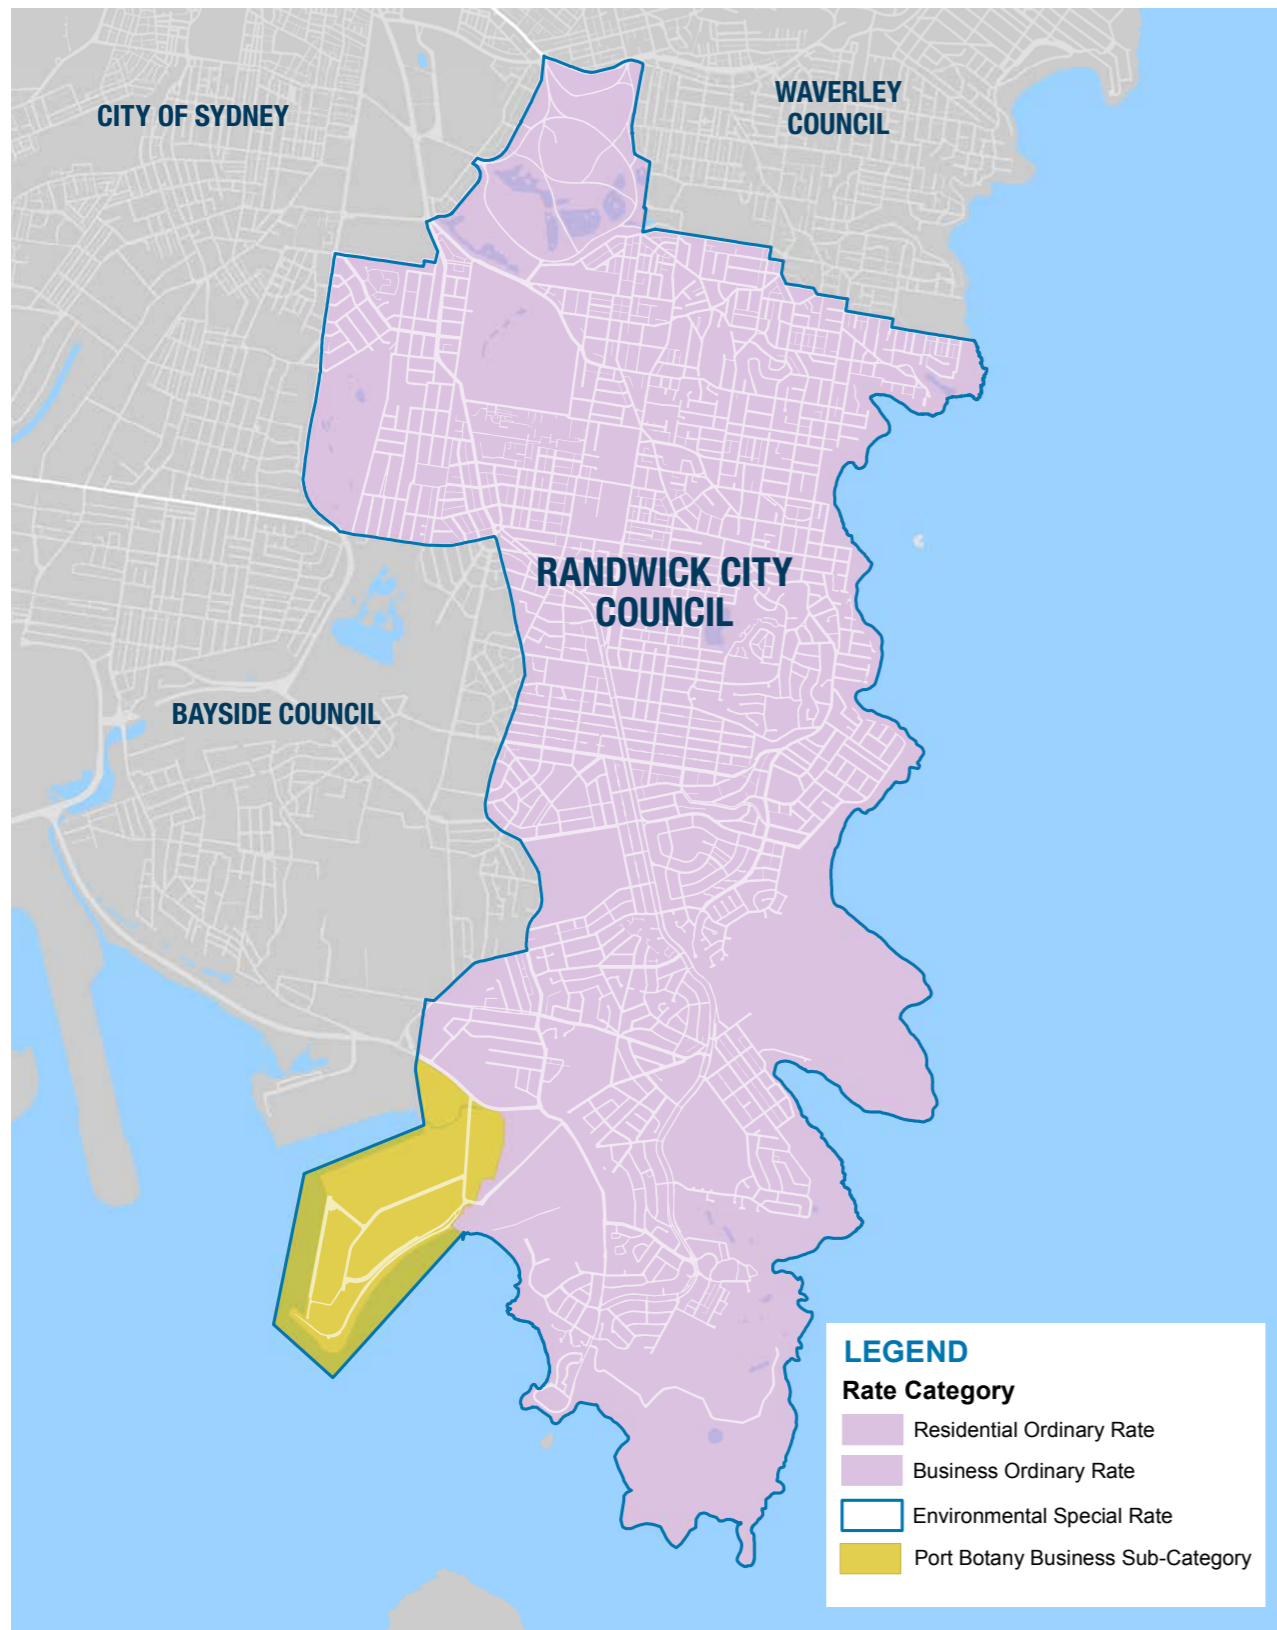

The following table provides a summary of the 2023-24 rates structure. It shows:

- the number of rateable properties within each of the rating categories (and sub-category);
- the rate in the dollar applicable to the category;
- the ad valorem Environmental Levy; and
- the total rate revenue for 2023-24.

Variations to rate revenue

The estimates of rate revenue for 2023-24 comply with the relevant provisions of the Local Government (General) Regulation 2005, NSW Local Government Act 1993 and the Division of Local Government Council Rating and Revenue Raising Manual.

Variations will occur throughout the budget year between the estimated rate revenue and the actual income received. Reasons for these variations include:

- Properties being withheld from rating, pending revised valuation particulars from the NSW Valuer General. This occurs when properties are subdivided and new valuation particulars are provided for the newly created lots. This usually results in an increase in the valuation base for the following year.
- Properties being rated for previous years upon receipt of new valuation particulars. Council’s ability to rate is contingent upon the Valuer General’s supply of respective land valuations. This may result in some properties not being rated for a particular year until subsequent rating periods. This artificially inflates the rating revenue received for the year in which the rates are actually levied.
- Previously non-rateable properties becoming rateable during the year.

Pensioner rebates

Holders of a Pensioner Concession Card who own and occupy a rateable property are eligible for a pensioner concession. The Local Government Act provides for a pensioner rebate of up to 50 per cent of the aggregated ordinary rates and domestic waste management service charges, to a maximum of \$250.

Under the State’s existing mandatory Pensioner Concession Scheme, the State Government reimburses the Council 55 per cent (up to \$137.50 per property) of the pensioner concession. The Council funds the remaining 45 per cent (up to \$112.50 per property).

An additional \$100 rebate continues to apply for eligible pensioners in 2023-24. This is not co-funded by the State Government.

Interest charge 2023-24

Interest, in accordance with section 566(3) of the Local Government Act 1993, is charged on overdue Rates and Charges. The Minister for Local Government determines the maximum amount of interest on an annual basis.

The charge is simple interest charged at a percentage per annum, calculated on a daily basis. Council has the ability to reduce and/or waive interest in extenuating circumstances.

The Minister for Local Government has determined that the maximum rate of interest payable on overdue rates and charges for the 2023-24 rating year will be 9.0 per cent per annum. Council will adopt the maximum rate for 2023-24.

Sundry debts greater than 90 days may incur interest charges at the same rate which is applicable to overdue rates and charges.

5.3 Annual charges

Domestic Waste Management Charge

The Council levies a Domestic Waste Management Charge under section 496 of the Local Government Act 1993 for the collection and processing of domestic waste. This charge applies uniformly to each separate residential occupancy of rateable land (and those properties where an ex-gratia payment is applicable) for which the service is available.

For residential premises with shared facilities (shared bathroom and kitchen) one charge will apply per 10 beds. For all other residential premises with self-contained units (non-shared bathroom and/or kitchen) one charge will apply per unit.

The Council will exercise discretion from time to time in regard to section 496 and may vary the charge and/or service in evaluation of the individual circumstances and demands of a given property.

The charge for 2023-24 per assessment is \$663.35. This is an increase of \$25.50 or 4.0 per cent from the 2022-23 charge of \$637.85. The estimated gross yield is \$40,095,984 for 2023-24. An upgrade service for additional capacity is offered at a charge of \$319.15.

Council introduced a Domestic Waste 'availability' charge in 2018-19 that applies to vacant residential land. The 2023-2024 Domestic Waste Management Availability Charge is \$332.35.

The Act limits revenue from the Domestic Waste Management Charge to reasonable costs which are required to provide the service. The Domestic Waste Management Charge provides for existing services (including FOGO); charges for tipping to landfill; the ongoing operation of the Perry Street Recycling Centre; the continuation of Council's Contaminated Site Remediation Program; and efforts to increase the amount of rubbish diverted from landfill.

Stormwater Management Service Charge

In 2008, Randwick City Council introduced a Stormwater Management Service Charge (pursuant to section 496A of the Local Government Act 1993) to establish a sustainable funding source for providing improved stormwater management across Randwick City.

Stormwater management can be defined as managing the quantity and quality of stormwater runoff from a catchment with the aim of minimising stormwater

impacts on aquatic ecosystems, minimising flooding impacts, and utilising stormwater as a water resource.

The Stormwater Management Service Charge appears as a separate charge on the rate notices. The charge is determined by the type of property.

- Residential property: \$25 per annum (approximately 48 cents per week).
- Residential Strata/Company titled property: \$12.50 per annum (approximately 24 cents per week).
- Business property: \$25 per annum plus an additional \$25 for each 350m² or part thereof by which the parcel of land exceeds 350m².
- Business Strata/Company titled property: calculated as per a business property and apportioned by unit entitlement for business strata lot with a minimum charge of \$5.

For 2023-24 the estimated gross yield of the Stormwater Service Management Charge is \$1,143,428.

Refer to page 194 for a list of key drainage capital works that will be wholly or partially funded through the Stormwater Service Management Charge in 2023-24.

Section charges on rails, pipes, cables and poles

Randwick City Council will charge any person or business for the time that they are in possession, occupation or enjoyment of a rail, pipe, wire, pole, cable, tunnel or structure laid, erected, suspended, constructed or placed on, under or over a public place as defined for the purposes of the Local Government Act 1993 (referred to as 'structures'). The proposed charges will be based on the nature and extent of the benefit enjoyed by the person concerned.

For example, some gas and oil companies possess, occupy, or enjoy structures located on, under or over public land in Randwick City. The Council will make a charge based on the revenue benefit derived from these structures.

Other structures

Council will charge people, businesses or organisations (which are currently not licence holders) that possess, occupy or enjoy structures located on, under or over public land in Randwick City. The charge will be based on the revenue benefit derived from these structures.

5.4 Pricing policy for goods and services

All of Randwick City Council's fees and charges that are not subject to statutory control are reviewed on an annual basis prior to finalisation of the Council's annual operating budget. However, in special circumstances, fees and charges can be reviewed and approved at other times by the Council in accordance with the Local Government Act and Regulations.

In accordance with section 612 of the Local Government Act 1993, the Council will give at least 28 days public notice of changes to fees and charges already adopted within the Operational Plan.

The various methods of pricing which have been implemented by the Council are categorised as follows:

1. Partial cost recovery
2. Full cost recovery
3. Market competitive pricing
4. Regulated and prescribed fees
5. Bonds and deposits
6. Conditions of grant funding

Partial cost recovery refers to situations where less than the full cost is recovered from the price charged for the service. Situations where partial cost recovery may apply, include:

- where benefits from the provision of a service accrue to the community as a whole as well as the individual users.
- a short-term approach to stimulate demand for a service where charging prices at full price may result in service evasion.

Full cost recovery refers to recovering all the direct and indirect costs involved in providing a service through the price charged for that service.

Market competitive pricing involves selecting price points based on market competition. Comparatives are made with businesses offering the same or similar services.

Regulated and prescribed fees apply when the fees are prescribed by State or Federal Government legislation. In the event of legislation introducing a new or amended statutory/regulatory fee subsequent to adoption or printing of this document, the Council may apply these new charges without further notice.

Bonds and deposits are refundable payments that may be requested as a security for making good any damage caused to Council property and/or completing any works required in connection with an approval.

Conditions of grant funding pricing applies to fees that are subject to eligible state and federal grants whereby Council is bound by their contractual terms and conditions, including applicable limits to chargeable fees.

For details on Council's applicable fees and charges, refer to Council's separate Fees and Charges 2023-24 document which is available on our website.

5.5 Borrowings and other revenue sources

Borrowings

There are no anticipated borrowings for 2023-24.

\$33.5 million of borrowings were drawn down in 2021-22. The loan balance as of the start of 2023-24 is \$28.9 million.

Sale of real estate property

The sale of any real estate property is not anticipated in the forthcoming year and therefore has not been incorporated into the 2023-24 Budget or the Council's Long Term Financial Plan.

Legal costs recovery

Council will seek to recover legal costs incurred in recovering outstanding rates and charges and other Council fees on a full cost recovery basis where possible.

Part 6. Statutory and supporting information

This part provides additional information about Council's operations including:

- Financial assistance provided by Council
- Asset management
- The Environmental Levy

- Council activities that are of a commercial or business nature

6.1 Financial assistance

(Pursuant to Section 356 of the Local Government Act 1993)

Randwick City Council will support community organisations, not-for-profits, individuals, and businesses by providing a range of grants, donations and subsidies in the 2023-24 financial year. Support is provided through our Community Investment Program, a range of subsidies and our 3-Council Regional Environment Program. We also support our precinct committees.

Community Investment Program

Council has adopted an 'investment' approach to community funding to enhance Council's ability to better structure and report on achievements while providing more diverse and flexible opportunities for the community to seek support.

Our Community Investment Program is a comprehensive policy framework that sits across the following six streams of funding and in-kind support to ensure that decisions are consistent, and based on principles of accountability, transparency and fairness.

Community Connect

This stream is awarded to not-for-profit organisations, community groups, businesses and individuals to develop projects or activities that encourage community participation and connection, and contribute to a vibrant cultural and community life in Randwick City. There are three funding rounds per financial year (August, November and March).

\$180,000 funding (in-kind venue hire included) is available for allocation, tied to conditions and acquittal requirements, across the three funding rounds in 2023-24.

Community Creative

In line with the Arts and Cultural Strategy, the Community Creative stream supports the development and delivery of creative, artistic, experimental and cultural projects that enrich our communities. It is awarded to not-for-profit organisations, community groups, businesses and individuals. There are three funding rounds per financial year (August, November and March).

\$180,000 (in-kind venue hire included) is available for allocation, tied to conditions and acquittal requirements, across the three funding rounds in 2023-24.

Community Partnerships

This program is eligible only to not-for-profit organisations that deliver support programs or services to improve the health and wellbeing of disadvantaged residents. Applicants may apply for an amount not exceeding \$20,000 per year, up to a maximum of three years, tied to conditions and acquittal requirements. Community organisations already in receipt of grant funding are not eligible to reapply until their current funding has been acquitted.

Approximately \$200,000 is available for funding continuing projects and new applicants in the 2023-24 financial year.

Community Contributions

This stream seeks to leverage significant community partnerships and relationships to drive social change, inclusion, impact and results within the community. These are significant contributions into the community and are managed through formal Memorandums of Understanding (MOUs) or other funding agreements.

An investment of \$519,800 is allocated to these contributions in 2023-24.

Community Sustainable

This stream includes two programs supporting projects and initiatives that promote environmental sustainability:

- **School Sustainability Grants** - School sustainability grants are available to registered NSW schools in Randwick City. The grants are provided for projects that will create environmental benefits to the school and the wider community.
- **Sustainability Rebates** - Randwick Council's Sustainability Rebates program supports houses, units and businesses in Randwick to implement energy and water saving initiatives. As part of this program, properties in Randwick can receive up to \$2,000 in rebates for purchasing one of 12 sustainable products, which include rooftop solar, batteries, rainwater tanks, pool pumps, insulation, electric vehicle charging infrastructure and more.

\$200,000 is allocated to sustainability rebates in the 2023-24 financial year.

Community Contingency (Mayor)

This stream provides the Mayor an opportunity to support local charities, emergency response events and fundraising campaigns at their discretion.

Approximately \$106,000 is allocated to financial support through the Community Contingency stream in 2023-24.

Subsidies

In addition to the Community Investment Program, Council also provides a number of subsidies, these include:

Affordable rental housing subsidies

Council has an affordable rental housing portfolio of 24 asset owned dwellings (with 6 allocated to transitional housing). Our affordable housing program supports essential workers and victims of domestic violence through subsidising the weekly rent by at least 25 per cent of the median rent levels for Randwick City.

Community facility subsidies

These are provided each year to support community not-for-profit organisations that operate for the benefit of residents. The subsidies include rental subsidies as well as capital works, and maintenance.

Approximately \$1,535,279 has been allocated to community facility rental subsidies in 2023-24.

Trade waste subsidies

A number of non-profit community groups receive fully subsidised trade waste services. In 2023-24 a subsidy will again be provided. This is a recurrent program and applications are not required.

3-Council Regional Environment Program

\$155,000 has been allocated in 2023-24 to fund delivery of projects under the 3-Council Regional Environment Program. Projects funded through this joint initiative of Randwick, Waverley and Woollahra Councils, include: Solar my School and Solar my Suburb, supporting solar installations on community organisations and schools; subsidised compost bins and worm farms through Compost Revolution; support for public electric vehicle charging infrastructure; and Energy Smart Cafes, working to reduce energy costs and greenhouse gas emissions across the eastern suburbs.

Precinct committee funding

\$2,800 has been allocated in 2023-24 to support our Precinct Committees. The funding, as resolved by Council and consistent with the adopted Precinct Rules and Procedures, is to help offset costs associated with running each Precinct meeting. Such expenses may include the hiring of a Post Office Box, phone calls made for the purposes of Precinct business and other associated expenditure.

Randwick NSW ClubGRANTS

Randwick City Council assists with the administration of the Randwick ClubGRANTS Scheme on behalf of local clubs. This scheme is a state-wide initiative that encourages local clubs with gaming machine profits over \$1 million to contribute towards the provision of front-line projects, programs and services that target disadvantaged groups and residents living in Randwick.

Non-profit groups and volunteer rescue organisations can apply for funding. Applicants are required to demonstrate how their project, program or service will address the local area priorities for Randwick City.

6.2 Asset management

Pursuant to section 8B of the Local Government Act 1993, Council is required to have effective financial and asset management, including sound policies and processes for asset maintenance and enhancement.

Council's approach to how we manage our Infrastructure Assets' life cycle is explained in our Asset Management Policy, Strategy and Plans.

These are available to view with our Resourcing Strategy on our website.

Drainage Works Program

Randwick's stormwater drainage network consists of 261 kilometres of drainage conduits and approximately 10,000 pits across an area of 3,655 hectares. The council manages this stormwater drainage network to collect stormwater runoff from regional and local roads, private properties and public open spaces. Other authorities including Housing NSW and Transport for NSW have stormwater networks to drain the public housing estates and state roads. There are also 16.55 kilometres of Sydney Water drainage pipes and channels that complement our network but are not managed by Randwick Council.

The annual Drainage Works Program is funded from council revenue, the Environmental Levy and the Stormwater Management Service Charge.

Many of our projects within the Drainage Works Program are complex projects that may be planned and constructed across more than one financial year. The following table details the 2023-24 Drainage Capital Works Program.

DESCRIPTION	2023-24 BUDGET ALLOCATION	SOURCE OF FUNDING		
		STORMWATER SERVICE CHARGE	ENVIRONMENTAL LEVY	GENERAL REVENUE

Operational Assets Replacement Program

The replacement program for Operational Assets is outlined in the table below.

OPERATIONAL ASSET REPLACEMENT PROGRAM – REPLACEMENT CYCLE	
ASSET	REPLACEMENT CYCLE
PLANT AND FLEET	
Passenger & light commercial fleet	Replaced at 60,000 kilometres or three years (whichever occurs first)
Truck fleet	Replaced every 7 years
Garbage compactors	Replaced every 5 years
Road sweepers	Replaced every 4 years
Footpath sweepers	Replaced every 3 years
Water tanker	Replaced every 10 years
Plant trailers	Replaced every 10 years
Minor plant	Replaced when unfit, usually every 2 years
Major plant	Replaced at 8,000 hours, or 5 years
INFORMATION MANAGEMENT AND TECHNOLOGY (IMT) HARDWARE	
Alarms and access control equipment	15 years or in line with facility lifecycle
CCTV Equipment	10 years or in line with facility lifecycle
Servers, storage and backup equipment	7 years
Networking	5 years
Office and production printers	5 years
Audio-visual equipment	5 years
Desktops and workstations	4 years
Laptops	4 years
Mobile telephones	2 years
COMPUTER SOFTWARE	As released or when required to meet business needs. All software is reviewed annually for fitness for purpose.

Randwick City Council sells most plant and fleet at auction at the end of the asset's operational life. The proceeds from the sale of these assets contribute to their replacement.

Hardware assets in IMT are disposed of using a specialist asset disposal firm that inventories and securely wipes all data from the system and subsequently, depending on value, resells the equipment or recycles the components into their various component waste streams to minimise disposal to landfill. The net proceeds are returned to Council.

6.3 Environmental Levy

The Environmental Levy is a special variation that has been in place since 2004-05, funding initiatives that address important environmental issues facing us today; such as coastal protection, conserving resources, waste, protecting biodiversity, and community engagement.

The Environmental Levy special variation is known as a temporary special variation, which means that the Levy is introduced and paid for a period of five years before it is removed (expired) from the Council's rate base. The temporary five year Levy has been continued on four occasions with support from the Randwick City community and IPART on each occasion.

The 2019-20 financial year was the first year of the 2019-24 Environmental Levy special variation timeframe. The levy will expire 30 June 2024.

Under the terms of the current IPART approval, Council is required to use the Environmental Levy revenue to fund environmental initiatives such as:

- Coastal walkway construction
- Wastewater re-use program upgrades
- Energy efficiency upgrades
- Solar power installations.

A breakdown of proposed Environmental Levy expenditure over each of the 5 years in the current approval was included in Council's application to IPART, and this breakdown now forms part of the IPART approval. The table below shows the key operational and capital projects and programs that will be wholly or partially funded by the Environmental Levy in 2023-24:

CATEGORY (AS PER IPART APPROVAL)	PRODUCT/SERVICE
Energy Efficiency Program	<ul style="list-style-type: none"> - Climate change initiatives to reduce greenhouse gas emissions across the City - Supporting development of walking and cycling facilities - Renewable energy roadmap implementation - Energy efficiency program including rebates for residents and businesses - 3-Council Regional Environment program including Compost Revolution, - Solar my School, Solar my Suburb, Sydney Water Waterfix programs and public electric vehicle charging infrastructure - Green corridors planting program - Street and park tree planting including bushland restoration - Tree data collection

6.4 Our Community Our Future Program

In May 2018, Council received approval for a special rate variation (SRV) to fund a program of projects and services identified by Council.

This program, known as Our Community Our Future, included a special variation for rate increases above the rate-peg for three years. The last of these rate increases occurred in the 2020-21 financial year, so no further rate increases are scheduled under this program.

Under the terms of the IPART approval, Council is required to use the additional special variation revenue over 10 years (2018-2028) to fund:

- \$20.5 million of additional operating expenditure;
- \$25.4 million of loan repayments; and
- \$44.3 million of additional capital expenditure in the areas of digital strategy, anti-terrorism obligations and major capital projects.

The table below shows the key capital projects that will be wholly or partially funded through the Our Community Our Future Program in 2023-24:

PROJECT	2023-24 PROJECT PHASE	2023-24 BUDGET ALLOCATION*
Coogee Beach bus shelter, amenities and kiosk	Planning	1,000,000
Randwick Literary Institute renewal	Planning	1,000,000
Snape Park amenities	Planning	1,000,000
Burrows Park amenities and field upgrade	Planning	500,000
Grant Reserve playground upgrade	Construction	500,000
Local Road Rehabilitation Program	Construction	500,000
IMT Infrastructure	Procurement	500,000

* For projects that are scheduled for planning in 2023-24, the budget allocation includes partial allocation of funds for construction in future years

6.5 Activities of a commercial or business nature

Randwick City Council undertakes activities of a commercial or business nature in order to provide a service or to generate revenue that would not otherwise be available.

These activities are:

- producing plants for sale to the public;
- collecting commercial trade waste, on a contracted basis;
- providing a long day care centre for children;
- managing Council's property portfolio;
- operating a leisure centre; and
- offering a business certification service which provides building approvals, building certification and building inspection services.
